

STATISTICS
OF
THE STATE OF QUEENSLAND
FOR THE YEAR
1960-61

Issued under Instructions from the Right Honourable the Treasurer by
K. M. ARCHER,
Commonwealth Statistician

Compiled by
S. E. SOLOMON,
Deputy Commonwealth Statistician and Government Statistician

BY AUTHORITY
D. E. WILKINSON, Government Printer, Tasmania.

FOREWORD

The *Statistics of Queensland*, 1960-61, has been issued in eight separate parts each dealing with a section of statistics, and these are bound herein with a general index covering the complete volume. The parts are—

- A — Population and Vital
- Bi — Rural Production
- Bii — Manufactures and Minerals
- C — Trade, Transport, and Communication
- D — Finance
- E — Local Government
- F — Law, Crime, &c.
- G — Social

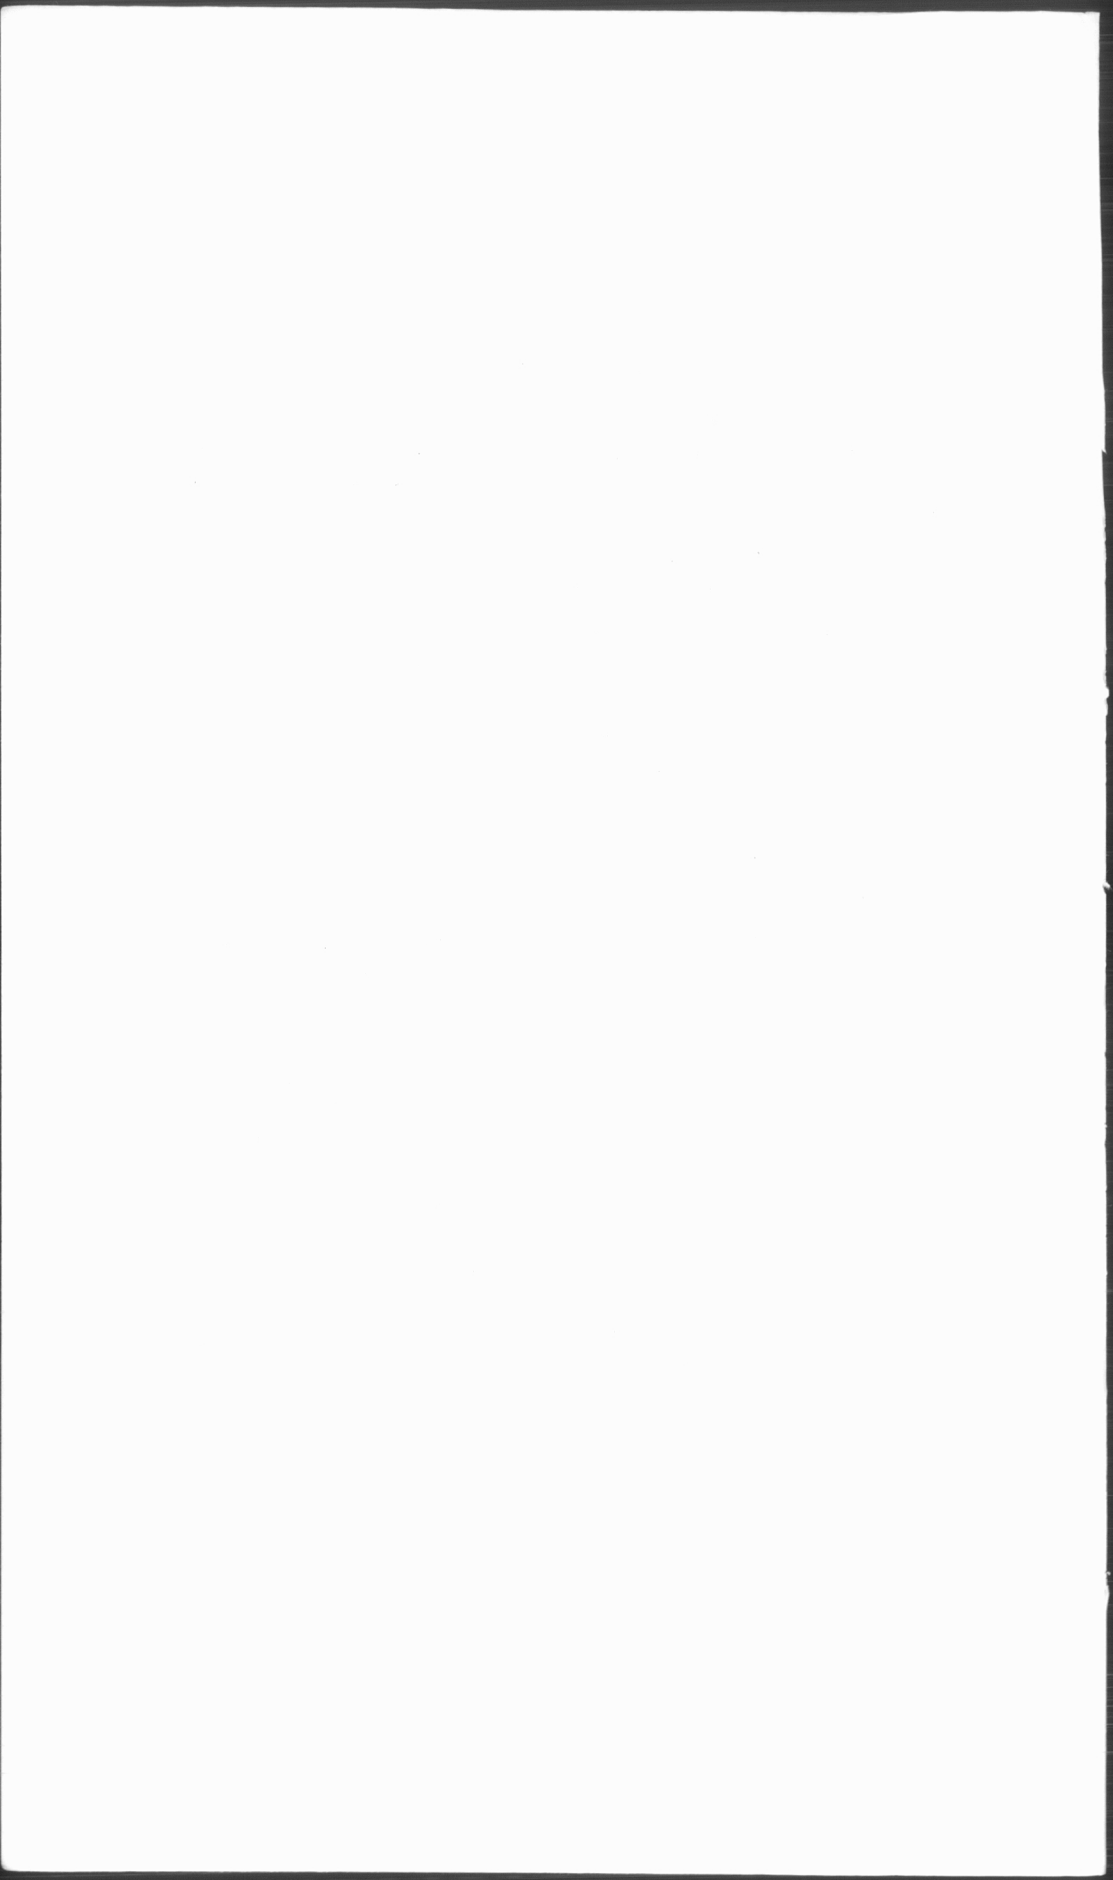

The statistics given in this volume should be read in conjunction with the *Queensland Year Book*.

For the latest figures in the principal statistical series, the reader should refer to other publications of the Bureau, particularly the *Monthly Summary of Queensland Statistics*, and *Press Bulletins* on special subjects, copies of which may be had on request.

My thanks are tendered to the many State and Commonwealth Government Departments, Local Authorities, private business firms and individuals, farmers and graziers, and others who supplied the basic data required.

S. E. SOLOMON,
Deputy Commonwealth Statistician
and Government Statistician

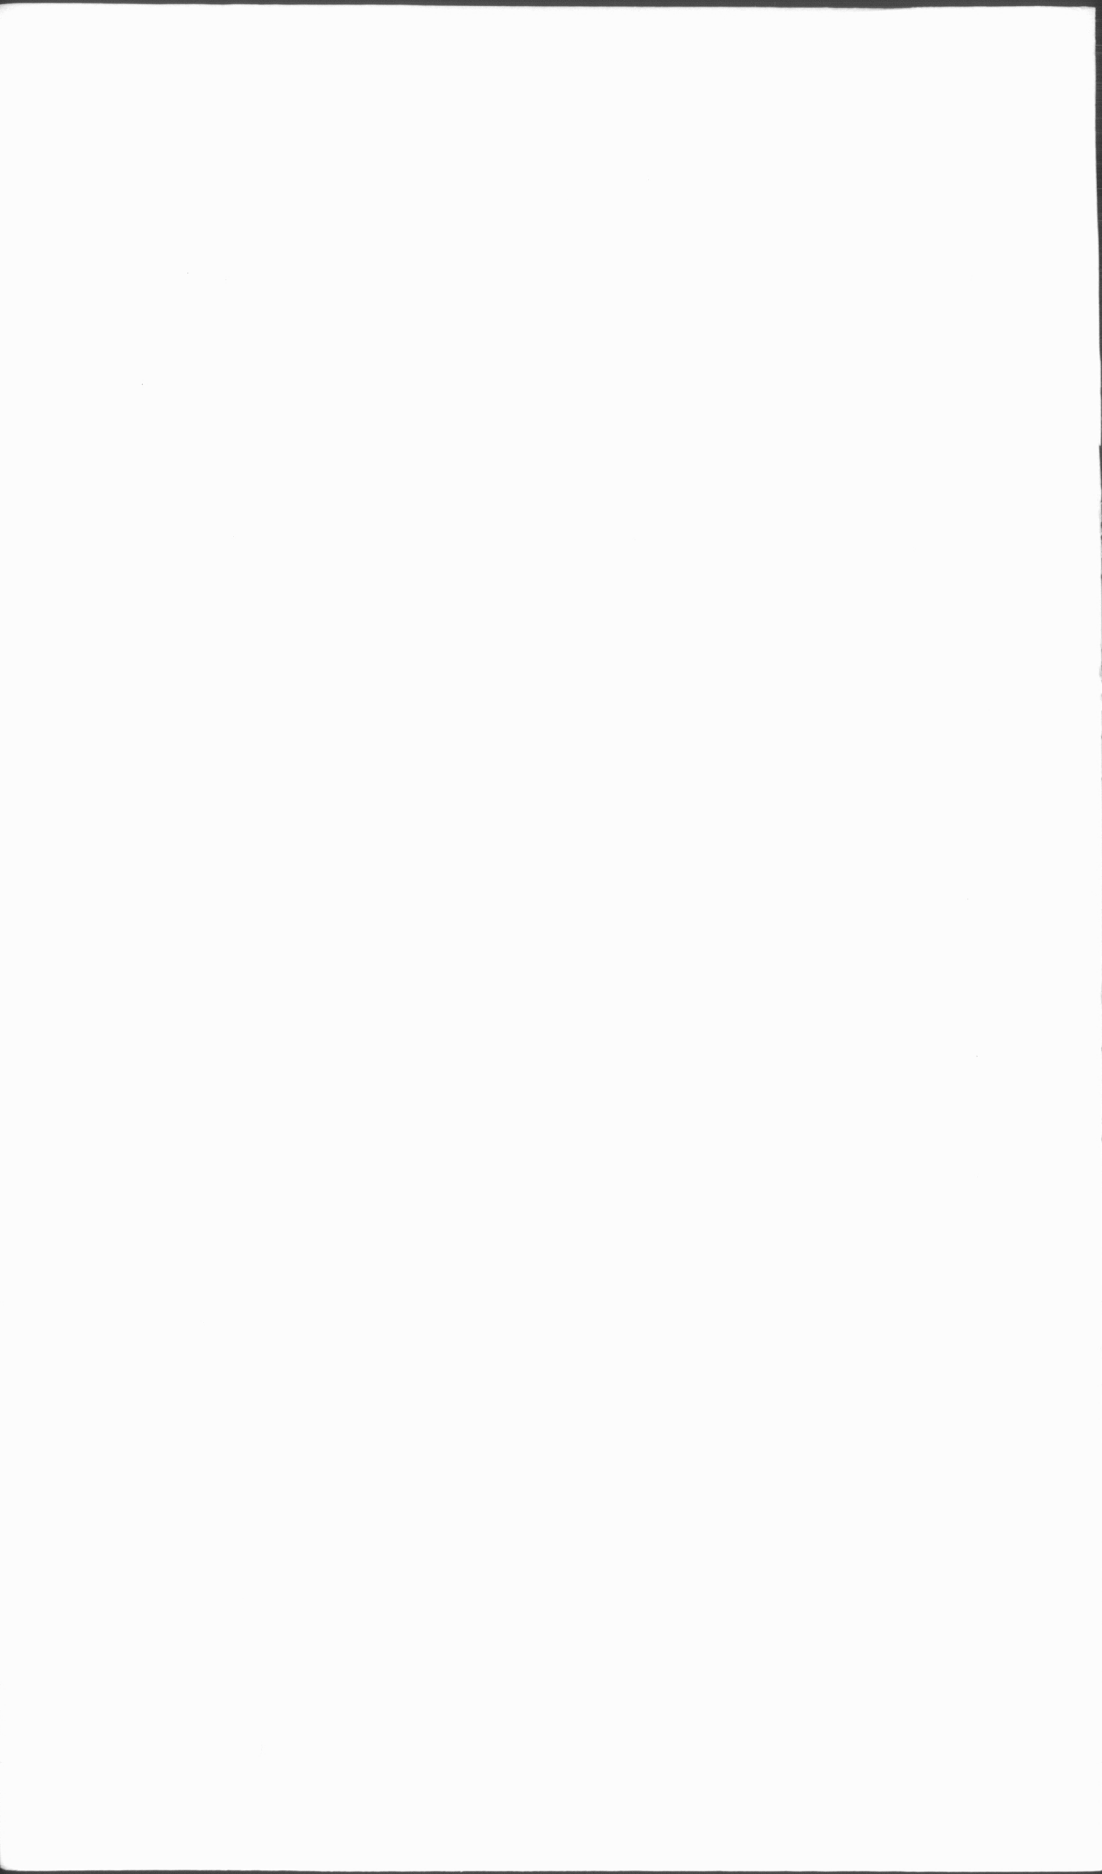

Bureau of Census and Statistics,
Queensland Office,
Brisbane

NOTE

STATISTICAL DIVISIONS

In this Part, marriages, births, and deaths have been shown by statistical divisions. The statistical divisions are groups of Local Authority Areas. Their grouping and details for each area are shown in the tables of births and deaths (Tables 22 and 32).

In tables of deaths and hospital cases, where dissection into tropical and sub-tropical has been made (Sections 6 and 8), the statistical divisions have been grouped as follows:—

North of Tropic, Coastal.—Mackay, Townsville, Cairns, Peninsula, and northern portion of Rockhampton (local authorities of Rockhampton, Broomsound, Fitzroy, and Livingstone).

North of Tropic, Inland.—North-Western, northern portion of Far-Western (local authorities of Boulia and Winton), and northern portion of Central-Western (local authorities of Aramac, Belyando, Longreach, and Peak Downs).

South of Tropic, Coastal.—Metropolitan, Moreton, Maryborough, and southern portion of Rockhampton.

South of Tropic, Inland.—Downs, Roma, South-Western, southern portion of Central-Western, and southern portion of Far-Western.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1970. At the same time, the population of rural areas has decreased from about 100 million in 1900 to about 50 million in 1970. This has led to a concentration of the population in urban areas, which has had a number of important consequences. One of the most important is that it has led to a change in the way of life of the majority of the population. In rural areas, the population is more closely tied to the land, and the way of life is more traditional. In urban areas, the population is more mobile, and the way of life is more modern. This has led to a number of changes in the economy, in the culture, and in the social structure of the United States.
2. The second of these is the fact that the majority of the population of the United States is now living in the South and West. This is a result of the process of migration, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1970. At the same time, the population of the Northeast and Midwest has decreased from about 100 million in 1900 to about 50 million in 1970. This has led to a concentration of the population in the South and West, which has had a number of important consequences. One of the most important is that it has led to a change in the way of life of the majority of the population.
